SUMMARY

Motivated and hardworking individual who is always eager to learn and improve. I aim to work in a creative and challenging environment where I can use my skills to gain new knowledge and grow both personally and professionally. I believe in contributing to the success of the organization while continuously improving myself.

SKILLS

Languages : JavaScript, Java

Web Technologies : HTML, CSS, React

Databases : MongoDB, MySQL, SQL

Backend Technologies : Node.js, Express.js

Tools & Editors: Git, GitHub, Postman, VS Code

TRAINING AND INTERNSHIPS

Maskan Technologies

(Sep 2025 – Dec 2025)

MERN Stack :

- Developed and maintained **full-stack web applications** using **HTML, CSS, JavaScript, React, Node.js, and MongoDB**, building 10+ REST APIs, handling backend logic, and integrating frontend with server-side functionality.
- Implemented **CRUD operations, user authentication**, and basic **database management**, while debugging issues, improving performance, and following clean coding and best practices through mentor collaboration.
- Designed **responsive and user-friendly UI components** with cross-browser compatibility, and gained hands-on experience with **Git/GitHub**, API testing, and basic deployment in a collaborative development environment.

Eagle-Tech IT Solutions

(Nov 2023 – Dec 2023)

Full Stack :

Completed a 1-month Full Stack Development internship focusing on **HTML, CSS, JavaScript, and Java (Backend)**. Gained hands-on experience in building responsive user interfaces and implementing server-side logic. Worked on integrating frontend components with backend services and understanding full-stack application flow.

PROJECTS

Hospital Management System [Link](#)

- Developed a **Hospital Management System** using **MongoDB, Express.js, React.js, Node.js** with **3 role-based** modules (Admin, Doctor, Patient), including appointment booking and user management.
- Implemented key features such as **dashboards, session logs, reports, search functionality**, and efficient management of profiles, appointments, medical records, and system activities.

NullTube [Link](#)

- Developed a **full-stack video streaming application** using **React (Vite), Tailwind CSS, Node.js, Express, and MongoDB** with complete API integration.
- Implemented **JWT authentication**, protected routes, and core video features (upload, publish/unpublish, likes, comments), using **Multer and Cloudinary** for secure media handling.

EDUCATION

B.E in Computer Science and Engineering, Velammal Engineering College (CGPA: 8.16) (Nov 2022 – Apr 2025)

Diploma in Civil Engineering, Murugappa Polytechnic College (77.73 %) (Aug 2017 – May 2020)

SSLC, Nazareth Matriculation Higher Secondary School (90.4%) (Jun 2016 – May 2017)

CERTIFICATIONS

Introduction to MongoDB for Students, MongoDB University.

AWS Beginners Certification, Edureka.

Foundations of Cybersecurity, Coursera.

Foundations of User Experience (UX) Design, Coursera.
